# Announcement: *World's Finest Hotels & Resorts for Families* by Petit Passeport

The top .01% of travel properties for families worldwide have been identified in a multi-year, independent study by Petit Passeport

March 31, 2022 | *United States*

With the reopening of international borders and gradual easing of pandemic restrictions, many families are eager to explore the world together. To aid families in planning their dream getaways, Petit Passeport, an online family travel publication and community, established a data-driven process to identify the *World's Finest Hotels & Resorts for Families* – the top-rated, best-reviewed, most family-friendly travel properties worldwide.

Petit Passeport, launching in conjunction with the announcement of the *World's Finest Hotels & Resorts for Families*, was founded to provide consumers with better access to inspiration and information on distinctive family travel. Recognizing the lack of an industry-recognized list or guide covering the world's top luxury hotels and resorts that cater to families, and that information on the remarkable array of family services and amenities offered at these properties was often hard to find, Petit Passeport set out to close this gap.

Led by frequent family travelers with backgrounds in research science and management consulting, Petit Passeport conducted a multi-year, independent study comprising hundreds of thousands of data points from dozens of traveler-trusted and industry-recognized rating and review sources, cross-referenced with firsthand experiences from hundreds of family travelers. The *World's Finest Hotels & Resorts for Families* is an elite distinction awarded to the approximately .01% (or 1 : 1,000) of hotels, resorts, and specialty lodging worldwide based on the following criteria:

- **World's finest properties:** distinctive, award-winning 5\* luxury hotels and resorts, and select 4\* luxury small boutique hotels and specialty lodging
- **Exceptional service and guest experience:** 4.5\*+ average guest rating across major review aggregators
- **Going above and beyond for families:** providing a thoughtfully tailored suite of services, amenities, and activities to surprise and delight families and young guests

The *World's Finest Hotels & Resorts for Families* do not apply, pay or otherwise compensate Petit Passeport for this distinction.

The full list of honorees is now available on Petit Passeport's website (PetitPasseport.com), accompanied by the first edition of in-depth profiles covering what family travelers should know about the honorees, from the need-to-know to the little-known wow factors, like: full-service baby

FOR IMMEDIATE RELEASE

## PRESS ROOM

concierges, kids getting to experience “My First Job,” chefs that will make any meal that a little guest desires, hotels with onsite waterparks and sprawling, state-of-the art kids’ and teens’ clubs, and the list goes on.

Moving forward, Petit Passeport will be releasing more editions of in-depth profiles on the *World's Finest Hotels & Resorts for Families*, family traveler “insider” reviews and guides, an online resource-sharing community for family travelers, and more exclusive family travel content on its website (PetitPasseport.com) and on social media (@petitpasseport).

On a somber note, hotels and resorts based in Russia were omitted from this recognition given the current conflict in Ukraine. Promoting conscious and sustainable travel is one of Petit Passeport’s founding principles. In addition to featuring *World's Finest Hotels & Resorts for Families* honorees’ sustainability initiatives, Petit Passeport donates 10% of its profits to charitable causes that support children and the environment. Now through May 31, 2022, Petit Passeport will be donating all charitable proceeds to UNICEF, designated to the children of Ukraine.
